

# Clinical Manual Review Signature Page

Wyoming Health Council  
Title X Family Planning Program

1. The **2022** version of the Title X Family Planning Program Clinical Manual has been reviewed, discussed, and found appropriate for provision of care by the Nurse Practitioners, Certified Nurse Midwives, Physician Assistants, Registered Nurses, and Physicians listed below, for clients in the Title X Family Planning Program funded through the Wyoming Health Council.
2. Deviation from these protocols based on sound and reasonable medical judgment must be documented in the medical chart and based on recognized national standards of care.
3. The local agency consulting Medical Director, authorizes the use of the Title X Family Planning Clinical Manual for Nurse Practitioners, Certified Nurse Midwives, Physician Assistants, and Registered Nurses to provide medical services according to written, approved/signed protocols and will follow the appropriate Nursing and/or Physician delegation rules and regulations of medical practice and scope of practice promulgated by the respective State of Wyoming Regulatory Agency Licensing Boards.
4. Agency/ site specific protocols developed by individual practitioners and physicians must be in agreement with program guidelines for project Grants for Family Planning Services under Section 1001, Public Health Service Act.
5. Collaboration on review and revision is integral in maintaining current, adaptable and compliant protocols. Changes and additions are to be submitted to the WHC Clinical Director on the Protocol Update Form.
6. Protocols will be reviewed annually by the delegate agency medical director and the practicing clinical staff. A copy of the completed signature page should be forwarded to the WHC upon request and copies of the completed signature page should be retained at each clinical service site.
